

# Why UKG?

Since 2014, Troon has grown 500% and has completed 14 acquisitions. With that growth comes growing pains. We are now on 7 different payroll platforms and numerous other legacy solutions. We've heard your struggles regarding access to data, challenges regarding scheduling and difficulty communicating with your teams. To become more agile, we've partnered with UKG to become our single source of truth for all things people (recruiting, onboarding, time and attendance, payroll, benefits and more.).

Over the next year, you'll be hearing and seeing a lot of new things. With UKG, you will be able to spend more time with your associates and our clients building relationships and elevating service levels versus working on numerous administrative tasks. The associates themselves will have more accessibility to things that matter to them.

How can we help this transition be easier for you and your team?
